

Job Opening

Title: Installation Technician

Department: Projects and Installation Team

Location: Seattle (Tukwila)

Date: Now

Pay Rate: DOE

Position Summary

Do you get nerdy and excited learning about new technologies? Are you passionate about the audio/video industry and looking for a place to grow your career? Do you thrive in a fast-paced environment and jump on any opportunity to travel?

If you answered yes to the above questions, Triton Technical may be the place for you.

A leading provider of AV and IT system engineering and integration for superyachts, Triton is seeking an installation technician dedicated to systems implementation and servicing.

This role is responsible for providing technical system installations, including: cabling, termination, and testing. An understanding of AutoCAD and system schematics would be a plus but not a requirement. Good skills with power tools, and a rounded understanding of electronics equipment. Ideal for someone eager to travel, the nature of this role is to travel frequently and globally. Qualities of a perfect candidate include: a meticulous eye for detail; ability to quickly and effectively learn complex system problems; basic installation skills; advanced computer skills; strong communication skills; career-focused and a professional attitude.

Once hired, an individual will begin an introductory program that outlines the role, the company, and current processes. A candidate is expected to excel and impress within the first month.

Qualifications of a Successful Candidate

Personality

- Ⓜ Highly motivated and intrigued by technology
- Ⓜ Very high level of attention to detail
- Ⓜ Extremely organized
- Ⓜ Enjoys the challenge of unfamiliar opportunities
- Ⓜ Quick to learn and a creative problem solver
- Ⓜ Relentlessly dedicated

Background

Triton Technical prospers in a world of possibility, where the only limit is imagination... and we think there is no limit to that at all.

Triton Technical provides consulting, engineering, and integration of entertainment systems, control systems, and communication systems for privately owned mega yachts around the world. Our projects are a collaboration of inspiration, organization, technical expertise and timing. Each of our founders have experience in project deployment, engineering, installation, and operations. Our aim is to bring the value of that expertise to each and every project while providing a positive difference to our clients' lives.

Often we are approached by those looking for something extraordinary – a communications, entertainment, and control system like no other. We always balance creativity and functionality with complete flexibility.

To make all of this happen, we have a highly motivated and skilled team. Each of our employees take pride and ownership of their overall imprint on the performance of the company and satisfaction of our clients. We operate in a fast-paced environment that is constantly changing and evolving. Our employees are open minded,

have a great sense of humor and know how to have fun while performing to the highest of standards. We offer career growth opportunities, full benefits, competitive salary, and 401k.

How to Apply
