

Job Opening

Title: Senior Installation Technician

Department: Projects and Installation

Location: Seattle (Tukwila)

Date to Fill: Now

Pay Rate: DOE

Position Summary

Is your passport ready? Triton Technical is seeking an experienced AV/IT installation technician interested in growing their career within an exciting and fast-paced global industry.

A leading provider of AV and IT system engineering and integration for superyachts, Triton is looking for a seasoned technical installations specialist dedicated to systems implementation and servicing.

This role is responsible for providing complex system installations, including: cabling, termination, and testing. The individual who fills this position must be able to navigate AutoCAD schematics as easily as they can manage power tools and electronics equipment. Ideal for someone eager to travel, the nature of this role is to travel frequently and globally. Qualities of a perfect candidate include: a meticulous eye for detail; ability to quickly and effectively solve complex system problems; advanced AV/IT system installation skills; advanced computer skills; strong communication skills; career-focused and a professional attitude.

Once hired, an individual will begin an introductory program that outlines the role, the company, and current processes. A candidate is expected to excel and impress within the first month.

Qualifications of a Successful Candidate

Personality

- Highly motivated and intrigued by technology
- Very high level of attention to detail
- Extremely organized
- Enjoys the challenge of unfamiliar opportunities
- Quick to learn and creative problem solver
- Relentlessly dedicated
- Unwaveringly high standards
- Big picture thinker
- Ultra-responsive
- Has presence
- Ability to diffuse high-tension situations comfortably

Background

Triton Technical prospers in a world of possibility, where the only limit is imagination...and we think there is no limit to that at all.

Triton Technical provides consulting, engineering, and integration of entertainment systems, control systems, and communication systems for privately owned mega yachts around the world. Our projects are a collaboration of inspiration, organization, technical expertise and timing. Each of our founders have experience in project deployment, engineering, installation, and operations. Our aim is to bring the value of that expertise to each and every project while providing a positive difference to our clients' lives.

Often we are approached by those looking for something extraordinary – a communications, entertainment, and control system like no other. We always balance creativity and functionality with complete flexibility.

To make all of this happen, we have a highly motivated and skilled team. Each of our employees take pride and ownership of their overall imprint on the performance of the company and satisfaction of our clients. We operate in a fast-paced environment that is constantly changing and evolving. Our employees are open minded, have a great sense of humor and know how to have fun while performing to the highest standards. We offer career growth opportunities, full benefits, competitive salary, and 401k.

How to Apply

Prospective candidates with interest in applying will fill out an online job application and upload their resume through our online test center. They will be required to take a series of brief online assessments in order to qualify for the position.
